“We have on-boarded SBLAW into our legal panel since December 2010 originally as an additional firm to provide basic licensing services, translation and general retainer work. We consider SBLAW as a perfect fit to our business because of it's nimble and pragmatic approach to the local market environment. We often engage in very urgent tender response time and SBLAW always commit their senior attorneys to work along side our sales team to ensure that our response are delivered on time – at times working through the night.
